# Ladies

Do you want a pure, blooming complexion? If so, a few applications of Hagan's MAGNOLIA BALM will gratify you to your heart's content. It does away with Sallowiness, Redness, Pimples, Blisters, and all diseases and imperfections of the skin. It overcomes the flushed appearance of heat, fatigue and excitement. It makes a lady of THIRTY appear but TWENTY; and so natural, gradual, and perfect are its effects, that it is impossible to detect its application.

## THE GAZETTE.

WEDNESDAY, DECEMBER 17, 1879.

### MILTON.

—Mrs. Emma Van Campen, of Olean, New York, daughter of Mr. and Mrs. H. Borden, arrived in town on Monday to visit her parents.

—A kerosene lamp took fire in Wing's store Monday night and in removing it Mr. Arthur dropped it onto the floor. The oil took and made this a very serious fire. We are glad to note that Miss Nettie Allen is again able to be about, having suffered an attack of diphtheria.

—The Shoppers' school, under the management of Miss Cuckow, will give a public entertainment in the Congregational church, Friday evening, Dec. 19. Admission 15 cents, children 10 cents. We understand that the proceeds will be used to purchase more or less for the school room. Miss Cuckow and her scholars are working hard to make the entertainment first class. We hope there will be a good attendance.

—Frank Humphrey is repairing the Rockton mill.

—Good skating on the pond.

—Coal in good demand.

—Boots and shoes cheap at Adams' store.

—It will soon be time to hang up the stockings.

—The young people's meeting held in the Congregational chapel, last Monday evening, was unusually interesting.

—William Turston, has removed to Sycamore, Wisconsin.

—There will be a Christmas tree and entertainment in the M. E. church Christmas night.

—Another marriage will take place soon. Parties are invited.

—One of our young men who attended a party at Clinton last week, got considerably off the balance and it was with difficulty that his friends got him home.

—Mr. Truesdell, of Rockford, Illinois, is spending a few days in our village.

—Remember the exhibition on Friday night of this week.

—Diane Cruttenburg carries the mail while Mr. Hanly is attending court.

—Jerry Schenck, has opened a new meat market in Janesville. Mr. Schenck is a fine gentleman and will undoubtedly succeed in business.

### SHOPIERE.

—Several of our citizens have been stopping in Janesville, for a few days, attending the Fairs and Shoppers' school.

—We are glad to note that Miss Nettie Allen is again able to be about, having suffered an attack of diphtheria.

—The Shoppers' school, under the management of Miss Cuckow, will give a public entertainment in the Congregational church, Friday evening, Dec. 19. Admission 15 cents, children 10 cents. —Jerry Schenck, has opened a new meat market in Janesville. Mr. Schenck is a fine gentleman and will undoubtedly succeed in business.

### MILTON JUNCTION.

—Miss Lizzie Wallace, of Milwaukee, is spending a week or two in this village, as the guest of her uncle, Mr. and Mrs. Wm. T. Morgan and family at the Morgan House.

—Elder John Heddman left here on Monday last week for Villa Ridge, Ill., where he will spend some time in evangelical labor.

—The Congregational society are making ample arrangements for a first class literary entertainment and Christmas tree, at Morgan's hall on Christmas eve. The services are already in full training for the occasion.

—Buton's stock of holiday goods is disappearing like the dew, but there is an abundance left and more coming, if you don't believe it go and see.

—Mr. W. J. Collins, of Mason City, Iowa, has been spending a week or so in town, visiting relatives and friends. He left for home on Monday night.

—Don't forget to go and hear Elder Wardner's last lecture on China, at the new church to-night. It will pay to attend.

—Mr. Michael Hoffman, has been quite sick the past week with congestive chills.

—Mr. Jerry of Whitewater, late of this place, was in town a day or two in the early part of the week.

—Uncle Billy Jones is quite sick.

—Marshall Teetsboro, late a clerk at the Foster house, is in the employ of Mr. Sisson, at the Morgan house.

—Mr. Geo. L. Mackey, who has been on the convalescent list for some time was quite poorly again on Monday.

—Mr. James Craig Jr., of Rose Creek, Minnesota, arrived in town on Thursday night last, and will remain until after the holidays.

—We understand that Mr. Ed Squires of Porter, has entered into partnership with Mr. C. E. Carey of this place, in the sale of oil machinery. They will handle among other things the machinery of Osburn & Co. Mr. Squires is a substantial farmer and fully understands the needs of the trade, the new firm will doubtless get their share of public patronage.

—Prof. Albert Whitford, of Milton College, visited our school on Tuesday of last week, and pronounced it a number one school in all its parts. He compliments Prof. Crawley's management very highly and the general order and method that pervades each department.

—The friends and acquaintances of Miss Lillian B. Fack gave her a birthday party on Monday evening, which proved a pleasant success in all respects. Miss Peck was taken completely by surprise, but was not at all discomfited by the raid. She received her friends with that hearty good cheer which showed they were truly welcome, and during the evening her unusual talent was fully appreciated by her guests as her piano and organ, with the assistance of Mr. J. E. Sargent, of Janesville, who happened to be present at her father's mansion, resounded with elegant music to the delight of all.

—Miss Emma Pease, of Harvard, Ill., is the new assistant in our graded school. Miss Pease comes well recommended and is making many friends and giving general satisfaction.

### A Musician in the Rough.

On Saturday afternoon an old farm wagon rattled through Patterson New Jersey, containing a group of ill-kempt boys who had come from their home in the mountains for a frolic. The most illiterate looking of the boys walked into a music store and picking up an accordion, made delightful music, much to the surprise of the merchant, who asked him to play a tune. The boy said he knew nothing about music or musical instruments, but he was even more successful with the violin than with the accordion. Then he played a prelude, an organ, a chorale, a waltz and flute in turn. His companions said he was insane on music, and that he could imitate correctly almost any music after hearing it. After enjoying the surprise of his listener, the boy suddenly quit the store, jumped into the wagon, and was driven away before his name could be ascertained.

A Ghostly Romance.

Fourteen human skulls, rounded round in a circle, were found on an island in Tulare lake, California, a few weeks ago. The mysterious remainder of some lost romance, were in the middle of a small, a small patch of grass, thick brush and pigmy cottonwood trees. No other bones could be found near them. Near by on the shore

of the island were two butts of basket work but both were untenanted. Tulare lake is probably the most mysterious spot on the continent. It is 300 miles south of San Francisco, on a great plain. As the traveler approaches the water appears to be higher than the land. The dry land of the plain gives place to damp soil a mile or so before reaching the water. When the rain is found at last one may wade out from a more than a mile and not get in above the knee. The lake runs forty miles one way and has a breadth of about thirty miles. The bottom is formed of powdered clam shells, and there are hundreds of small islands, but a liberal selection of birds. Millions of the white birds of the gull, nest the islands, flock high in the air or skim the still water. In the Indian summer just past the whole lake was veiled in mist. Mounds have been found along the shore, and before many months the whole bottom will be inspected, in the belief that it will show traces of a submerged city.

### INFLAMMATORY LITERATURE.

Its Enormous Increase and the Means for Its Suppression.

The people who would suppress vice have the hard task of it. It is not only the illegality which is to be put out of the way but that immense flood of stuff which is seasoned with unwholesome spicery. A recent reviewer, after examining great numbers of these multiplying productions of a degraded press, wrote that: "Nothing good can be said of them. They must be characterized as bad, worse, worst." The titles of the stories are viciously sensational and the situations are of the most impossible character, with high price of hair-brained adventure, prurient description and scandalous suggestion. Pictorialness, delicacy, purity are all alien to these blood-curdling fictions, and the normal and healthy conditions of life are not considered. The heroes are those most regardless of long-settled social and natural laws, and their most notable achievements are triumphant revolts against the very nature of things. Their armament is complete and efficient, their combative spirit is marvellous and their language and habits are those of the savans. Occasionally a trite moralism or a plagiarized description is introduced as a foil, or as a contrast by which to heighten the color of the narrative, but the next chapter brings back the rattle of the frontier revolver, the howls of the South Sea pirates and the vulgar-gentle dialogues of the buccannier and ladies. And the reader ever draws a lengthening chain for no sooner is Chitcam Dick brought to his reward in the last chapter of one story than Deadwood Jim enters the most interesting part of his brutal career in the same paper, and Calamity Jane appears on the scene in the first chapters of another. The general lament over this pernicious mental pabulum is that it excites boys to steal knives, hatchets and pistols and conceal themselves in railroad cars with a view to becoming pirates of the distant prairies. That is the least part of it. The worst is not the outright corruption of a few days, but the abominable influence exerted on the minds of boys and girls who do not run away from home. These young persons do not become daring ruffians or noisy villains, but their moral nature is depraved and their minds gluttied with this poisonous material, are unable to appreciate that which is pure and wholesome and of good repute. The makers and publishers of this malicious stuff cannot be too severely dealt with. They are enemies to society, and society owes it to herself to exterminate their business.

## BRIEFLETS.

—Prof. Severance dancing school this evening.

—Young Men's Christian Association to night.

—A box of choice Havana cigars for 10 cents at Vankirk's.

—Burr Sprague, Assemblyman elect from Green county, was in the city to-day.

—The Merchant of Venice holds forth again at Lappin's hall to-night.

—The celebrated Czar cigar, only 20 cents per box, at Vankirk's.

—The holiday season utterly refutes the slander that women cannot keep a secret.

—Fidelity, Hope and Charity, 3 for a dime, choice Havana cigars. For sale only at Vankirk's.

—Conductor James Dean of the St. Paul R.R. was a welcome caller at the Gazette office this morning.

—Corner lots are all nice enough until a snow storm comes and the sidewalks have to be cleared off.

—Do you want a choice smoke? Try the *Bumble Bee*, the best 5 cent cigar in the world. Sold only by Vankirk, 23 Main street.

—J. B. Doe, Jr., whose health has been poor for some time, went to Milwaukee to-day to try the effect of Turkish baths.

—Now is the time to buy New Hickory Nuts. Vankirk has a car load, and is selling at \$1.00 per bushel until January 1st, 1920.

—Min Sutherland can't see why everybody can't be happy. He is, and the father of a big, bouncing boy ought to be, and all is well.

—O. H. Fethers is gaining rapidly, and is now able to sit up some, and hopes to be on his feet again by Christmas. We hope so too.

—The morning paper says that "a brilliant meter cast its light athwart the heavens last night." That must have been a gas-meter.

—Those who want holiday books or gifts lettered can get it done neatly and cheaply at H. J. Lawrence's bindery, in Smith & Jackson's block.

—Even the little folk have burdens of heart grief. They were greatly troubled because school was kept this week, and now they are crushed with anxiety to know how long a vacation they are to have.

—It's a pity that everybody isn't honest, but they ain't. Somebody was so tempted by the display of holiday goods in Moseley's yesterday as to cause the nipping of a \$10 perfume case, which has not since been seen.

—Mrs. Mack has received a letter from Iowa stating that Mrs. Marbacher is no more, death having claimed her. Mrs. Marbacher will be remembered here as the woman who was locked up in jail for keeping a house of ill-fame, and who, for three months or more, occupied a cell with Mrs. Mack.

—The morning mails were greatly delayed to-day by an accident on the Northwestern road at Johnson's creek. The freight train due here at 2:45 a. m., met with some mishap there by which seven cars were thrown off the track, and a bad wreck caused, but fortunately no one was injured. A wrecking train was sent from here, and the track cleared, but the train due here at 7 o'clock was delayed thereby about three hours. Everything is all right again now, and the world on wheels moves on as usual.

—"Come and see me." That's how the invitation reads, which W. T. Vankirk the grocer, gives in another column. He has something to show, and something to tell you. He has put prices clear down, as will be seen by reading his advertisement, and when he says so he means so. He shows up a long list of articles to choose from, and names some prices which are worth looking at. Nobody need go hungry at these rates, and everybody can make money by taking advantage of the present proffer. Vankirk has been here long enough so that he needs no introduction to the public, and everybody knows where his store is on Main street, and by reading his advertisement everybody can also know just what he is doing there. Read it, go there, and be happy.

TRAVELERS, stop at the Astor House, NEW YORK.

## THE WEATHER.

REPORTED BY PRENTICE & EVENSON, DRUGGISTS.

The thermometer at 6 o'clock last evening stood at 16 degrees above; at 1 o'clock a. m. to-day at zero; at 7 o'clock a. m. at 8 degrees below, and at 1 o'clock p. m., at 3 degrees above. Clear.

The indications to day are, for the upper lake region, rising barometer, stationary or lower temperature, westerly winds, clear weather with occasional snows.

## HOLIDAY GOODS—USEFUL AND ORNAMENTAL.

Wingate has just received fine Zephyr Worsteds, all sizes, very cheap, for ladies and children. He has the finest stock in Janesville of plain linen, hemstitched and fancy colored Embroidered handkerchiefs. An elegant line of ladies' and gents' silk handkerchiefs. New stock of linen collars and cuffs direct from Troy, New York. Fine satin, flannel and felt skirts. Wingate's stock is full and attractive in every department, and business is "booming" at the one price store in Jackson & Smith's block.

## A GOOD TIME IN CENTER.

A dramatic entertainment under the auspices of the Grange and the Temple of Honor, will be given at Grange hall, in the town of Center, on Tuesday evening, Dec. 23d. The old English play called "Under Suspicion or Old Joe's Grandchild," will be presented with Harry Wallis as the leading character, supported by Miss Lizzie Bleasdale, Miss Lottie Bemis, Fred Bemis, E. L. Paraley and J. W. Bleasdale. The play will be followed by Irish and Dutch specialties, by Harry Wallis and Harry C. Forrester. The admission for adults is to be 20 cents, for children under 12 years, 10 cents. After the entertainment oysters will be served by the dish at reasonable rates.

## FACTS FOR FIREMEN.

A private letter received from William Kemp, now of New York, but who has hosts of friends here, contains the glad news that he is fast recovering from his long and severe illness, and hopes soon to be as rugged as ever. He evidently does not lose his interest in the Janesville Fire Department and sends some facts and figures from the New York Department, for the boys here to peruse. The chief items sent are that the Department at the annual inspection mustered 721 men as against 727 last year; 45 engines, 9 chemical engines, and 19 hook and ladder companies comprise its apparatus, with 100,000 feet of hose. The average time required for engines, when called to a fire, to hitch up and get started has been found to be 3:24-100 seconds; of tenders, 11:6-100 seconds, and of trucks, 7:50-100 seconds. The best average time in taking horses from their stalls and hitching them to the apparatus was 3:17-100 seconds. Chief Shay in his report recommends smooth-bore nozzles as superior to the so-called ring nozzles.

These facts will prove interesting reading matter to the fire lads here, and the quick time made in New York will prove a further inspiration to lively work here.

## THE STOCK AT SUTHERLAND'S.

Few firms in any city have made as extensive and elaborate preparations for the holiday trade, as have Sutherland & Sons, the book men of this city. They always carry a large and choice stock, but have added greatly even to this, so they without doubt have the largest and most varied supply of holiday books to be found in this part of the State. They have pictures, too, without number, engravings, chromes, etc., making a larger collection of works of art than has ever been brought to this city before. Their collection of art books is also large and varied. In fact they have everything that would naturally fall in their line of business and no adequate idea of the numberless and beautiful things which they have in stock can be gained, save by a personal inspection of them. It is a fine display, indeed, and one of such great variety that each and every one can there find something which is "just the thing." These headquarters have plenty of visitors daily, as the display is an attractive one, and in hunting about for holiday gifts, Sutherland's cannot be overlooked. Much cultivated taste and business care is shown in selecting this stock, and it contains many rich goods and choice works, and we have no hesitancy in speaking words of high praise, as our readers will find by a visit there, that they are all true.

## STRIKING SAMENESS.

We have before us a copy of the Christian Leader, of November 13, containing the same paragraph on swearing which appeared as original in a morning paper here December 16. The Leader ought to be ashamed of itself for not giving credit to the Janesville sheet. We give the paragraph as it appeared in the Leader a month ago, and which is there credited to the Washington Republic. By comparing it with that in yesterday morning's paper not a word of difference is found, and it is therefore evident that the Leader has done great injustice to our neighbor. Will the Leader apologize? It of course ought to.

Young man, don't swear. Swearing was never good for a sore flinger. It never cured the rheumatism nor helped draw a prize in the lottery. It isn't recommended for liver complaint. It isn't sure against lightning, sewing-machine agents, nor any of the ills which beset people these days. There is no occasion for swearing outside of a newspaper office, where it is useful in proof reading and indispensably necessary in getting forms to press. It has been known, also, to materially assist the editor in looking over the paper after it is printed. But, otherwise, it is a very foolish and wicked habit.

A YOUNG man by the name of William Kutz, coachman for Mr. Charles McClellan, came to my store one morning complaining that his feet hurt him very badly, and expressed fears that they were frost-bitten. He had in vain tried to get relief by consulting physicians, and had endeavored without success, to ease the pain by rubbing his feet with snow and ice, the remedy applied in such cases. Being exposed a great deal to the cold by his occupation, his feet got very cold, until one day he fainted in the street. A few days after he again came to my store and showed me his feet. I have seen a great many sores in my life, but nothing to equal this, and was afraid the poor fellow would lose his limbs. He asked me for St. Jacobs Oil; but at first I refused, as I did not wish to take the responsibility upon myself, not being a great admirer of so-called Patent Medicines. However, some friends, who happened to be in the store at the time, begged me to give the St. Jacobs Oil to the sufferer; so we rubbed his feet well with the Oil, and he took the remainder with him. After nine days the same man came again into my store, perfectly well, and requested me to write to you of this most wonderful cure; he also stated, that two other persons had been cured of Rheumatism by the same bottle which helped him.

## WORTHY MANSONS.

The Western Star lodge No. 14, F. & A. M., elected the following officers last evening for the ensuing year, the same to be installed next Tuesday evening:

W. M.—A. S. Lee.  
S. W.—J. Heath.  
J. W.—C. A. Palmer.  
Treasurer—Robt. Hodge.  
Secretary—George G. Sutherland.

## FOOTVILLE.

The recent cold snap has made a decided improvement in the roads. Although they are now very rough, in a few days they will all be smooth again provided the weather doesn't soften too much. The thermometer has fallen some mornings to 8 degrees and nine degrees below zero.

—Hogs being on the "boom" once more, are quite lively at prices ranging from \$1.35 to \$1.50 with a tendency to pay better prices for the best hogs. Our local buyers are on the alert once more and several car loads are shipped every week.

—Wm. Snyder, brother of the Snyder boys of this place, is here at present visiting his mother and brothers. He reports everything booming in Minnesota.

—We noticed the familiar phiz of John Silverthorn on our street last Sunday. He is looking quite hearty, but is not very strong as yet.

—Stephen Honeysett, the well known breeder of Poland China hogs, sold twelve spring pigs, seven months old, that topped the beam at 364 pounds, and were a very smooth, even lot of pigs. He also sold two others, one year old and the other two

years old, whose weight was 1438 pounds. Mr. Honeysett needs no praise from us in regard to his hogs, as they speak for themselves.

—Mr. Jud Hawk recently weighed a yearling colt here that pulled the scales at 1,095 pounds. How is that for high?

—Mr. and Mrs. J. C. Cook are both sick at present, but are somewhat on the mend. Miss Julia Brown, we are happy to say, is also convalescent. We hope to see them around again soon.

—Look out for the M. E. donation at Hawk's, sometime next week.

—Concert at the M. E. Church on Sunday evening, December 28. Let all attend.

—Don't forget the Christmas tree at Orford, on Christmas eve.

—Tobacco stripping is the work in which many are engaged at present. The weather, until lately, has been all that could be desired. Some complaint of tobacco in bulk heating, probably on account of containing a good deal of fat steam. Work is being pushed lively, and we hear of a few crops that have been delivered.

—The drama is reviving, and the Association will present some first class play immediately after the holidays.

—A. F. Snyder was in town last Sunday. He reports school as running smoothly.

## Among the Useful Toilet Articles.

We notice a much liked preparation for the hair, possessed of properties so remarkable that no one who cares to own a clean and healthy scalp with beautiful hair should pass it untried. Its properties are cleansing, invigorating and healing, and after a few applications the hair ceases to fall. Dandruff and Humors disappear, and the hair grows clean, soft and silky. It keeps the scalp cool and comfortable and gradually restores the hair, if gray or faded, to the natural and life like color, beautiful to look upon. It is Parker's Hair Balsam that has won such popular appreciation by its many excellent and healthful properties. Sold in large bottles at only 50 cts. and \$1.00, by all first class druggists.

## CITY NOTICES.

A large proportion of children who die early are those whose brain development is unusually large in comparison with the body. Why is this? Simply because the functions of the body are too frail to supply the waste going on in the brain consequent upon its active intelligence. Follows Compound Syrup of Hypophosphates is so prepared that it imparts the vital principle directly to the brain, while it assists in developing a vigorous and robust body.

## From a Well-known Clergyman.

WASHINGTON, D. C., July 15, 1876.

Several years ago while laboring as a minister to seamen, traveling by land and water, and consequently exposed, I suffered much at times from bad digestion and its accompanying symptoms. On the recommendation of a friend I tried PRENTICE & EVENSON'S, and I am happy to say that I have derived the most beneficial results from the use of this simple and efficacious remedy.

## POISON!

Sports of disgusting mucus from the nostrils or upon the tongue, Watery Eyes, Swollen, Itching in the Ears, Headaches, Cracking sensations in the Head, Intermittent Pains over the Eyes, Foetid Breath, Nasal Discharge, Scabs in the Nostrils, and Itching in the Throat are

## SIGNS OF CATARRH.

No other such loathsome, treacherous and undermining malady curses mankind. One-fifth of our children die of diseases generated by its infectious Poison, and one-fourth of living men and women drag out miserable existences from the same cause. While asleep, the impurities in the nostrils are necessarily swallowed into the stomach, and inhaled into the lungs to poison every part of the system.

Dr. Wm. De Meyer's Catarrh Cure absorbs the purulent virus and kills the seeds of poison in the farthest parts of the system. It will not only relieve, but certainly cure Catarrh at any stage. It is the only remedy which in our judgment, has ever yet really cured a case of Chronic Catarrh.

Cured! Cured! Cured! Cured!
